Ready-to-use mosaic plaster mass for making decorative and protective coatings outside and inside buildings on typical construction substrates. Due to the high resistance to weather conditions and mechanical damage, it is recommended for public utility rooms and the lower parts of the facade (plinths, cornices, etc.). The product is applied with a trowel. Available in a wide range of melanges in accordance with the MARMARE pattern book and the supplied pattern. Before applying the plaster, prime the substrate with MARMARE GRUNT or MULTI GRUNT in a color matching the color of the predominant aggregate.

### Characteristics:

- easy application with a trowel
- high resistance to milking
- high resistance to UV radiation
- high mechanical strength
- high flexibility
- a wide range of melanges available
- easy to keep clean
