Sanding board with sandpaper and mesh attachment - 240x110 mm

Sanding board 240x110 mm with strong butterfly clamps for attaching sandpaper and sanding mesh.

It is an original COMENSAL product widely used by professionals and amateurs. For many years it has been at the forefront of the most frequently chosen products in the category of floats with a primer.

Noticeably increases efficiency and comfort in grinding, carpentry and renovation works. It is handy and easy to maneuver.

Irreplaceable in activities requiring surface smoothing, removing excess substrate or controlled removal of unwanted layers from various types of surfaces.

Liked in the construction community. Very well rated as a product for grinding gypsum plasters.

At other auctions of our store, you can buy abrasive meshes with gradations from P40 to P220.

Handle:

The ergonomic handle with recesses profiled for the fingers fits well in the hand, gives a sense of comfort and "control" over the tool.

Made of full plastic, it forms a uniform, durable structure with the base.

working part:

The tabletop was glued with 4mm foam. The sandpaper or mesh attached to it work more effectively and efficiently.

The foam backing measures 240 x 110mm and fits mesh and sandpaper of this width or slightly larger

It is handy and easy to maneuver.

Sandpaper and mesh are fixed with metal clamps that are easy to loosen or tighten with wing screws.

Clamps are located along the short sides of the trowel. They hold the taut paper/mesh firmly in their claws.

Quality:

The tool was made of high-quality raw materials, thanks to which it is resistant to damage, and properly maintained, cleaned and stored, it will be useful for a long time.
