Manufacturer	
Weight	0.05 kg
SKU	000931
Advice IBB	
Application	high-quality hybrid adhesive with a very strong and immediate initial grip
IBB ID	10342

Product specification

Manufacturer	BORAMAX	Unit	pcs
Brand	boramax	Colour	white

BORAMAX King Fast & Strong 290ml KING FAST & STRONG - hybrid adhesive with a very strong initial grip - for gluing heavy and large elements. The product combines popular materials used in construction, creating a flexible and durable connection. It is resistant to external factors, UV radiation and water. The product allows for vertical gluing without additional support, is resistant to dripping and enables gluing of wet surfaces and gluing under water.

APPLICATION

Bonding typical construction materials: concrete, plaster, chipboard, wood, brick, glass, mirror, polystyrene, metal, aluminum, cork, mineral wool, glass wool, artificial and natural stone, PVC, gypsum, stainless steel, porcelain

Ideal for gluing: mirrors, baseboards, shelves, stair steps, ceramic tiles, window sills thanks to the speed and strength of bonding.

Other applications: gluing decorative elements, hobby work, gluing furniture, sanitary fittings, gluing drain pipes, repairing non-building structures - trailers, semi-trailers, refrigerated containers.

PROPERTIES

- paintable after initial hardening,
- for absorbent and non-absorbent substrates,
- moisture resistant,
- very high adhesive strength - replaces nails and screws,
- flexible, resistant to changing weather conditions,
- thermal resistance in the range from -40 °C to 90 °C
- inside and outside,
- White color
- packaging: 290ml cartridge
