

Chemical anchor super Strong 300ml

Brand	BORAMAX
Manufacturer	
Weight	0.40 kg
Product Code	strong
EAN	5901738721845
SKU	000384
Application	for elements subject to high mechanical loads: reinforcing bars, pins, balustrades
IBB ID	8719

Product specification

Manufacturer	BORAMAX	Unit	pcs
Brand	boramax	EAN	5901738721845

Strong chemical anchor 300ml

Designed for mounting pins, rods and mounting flanges, sockets and frames subject to extreme mechanical loads in both solid and perforated materials.

It has high strength and no expansion stresses in the substrate.

It is possible to install the anchor close to the edge of the substrate.

It can be used in a wide temperature range (up to -5°C).

Provides waterproof and tight mounting with high chemical resistance.

Application using a reinforced squeezer for standard cartridges.

PROPERTIES

Can be used for mounting in various substrates, both solid and hollow,

Elements can be anchored at different depths to obtain higher load-bearing parameters,

It has high resistance to chemical compounds.

2 fastening tips

Super strong – 1400kg!!!

APPLICATION

Fastening elements subject to high mechanical loads: reinforcing bars, mounting pins, balustrades, masts, fence posts, shelves and handles in all types of surfaces,

Repair of defects in solid and porous substrates (repair putty).

Installation of fastening rods and dowels close to the edge of the concrete slab and at a short distance from each other (no stresses created by expansion fastenings)
